Transdermal delivery system - liposomal technology

Liposomal technology effectively enhances transdermal penetration of active ingredients and **provides higher efficacy of the cosmeceuticals.**

Liposomes filled with active ingredients **overcome the epidermal barrier**, penetrate the *stratum corneum* and introduce desired substance **into deeper layers of the skin.**

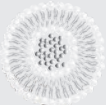

Aesthetic series - active ingredients

Aesthetic series is dedicated to **shortening recovery time** after aesthetic medicine procedures.
Regenerates the skin, reduces redness, swelling and hypersensitivity. **Brings fast skin relief.**

		Cooling Face Mask	Laserat™ cream	Arnizen™ cream-gel	Meso-Arnizen™ cream-gel
